

Simply Baby

For babies between Eight weeks & Five months

"these captured moments are
tomorrow's memories"

Warrington Photography

Portraits by Sarah Hough

WHAT TO EXPECT

BEFORE

Simply Baby sessions are suitable for babies between 8 weeks and approximately 5 months old (before baby can sit up independently).

These lovely sessions are designed to capture those precious first few months of your baby's life, a stage that passes by so quickly. I especially love capturing those first beautiful smiles!

A £99 deposit is required to secure your session in the diary. This amount will then be deducted from your chosen collection.

DURING

I schedule up to 2 hours for these sessions, allowing plenty of time if baby needs a feed, cuddle or little nap during the session, the perfect opportunity to capture a few sleepy images too.

AFTER

Following your session, I'll invite you back to view your images.

During this appointment, you'll choose your favourite images and the collection which best suits you.

Your chosen images will then be fully edited and prepared ready for printing and framing.

There's no need to decide in advance which collection you'd like.
