

Little Sitters

PORTRAIT PHOTOGRAPHY

"these captured moments are
tomorrow's memories"

Warrington Photography

Portraits by Sarah Hough

WHAT TO EXPECT

BEFORE

Sitter sessions are suitable for babies who can sit up unaided, from around 6–12 months old.

Sibling and family images can also be taken during your sitter session.

Sitter sessions are booked with a £99 session fee, which is then deducted from your chosen collection.

I have a large collection of sitter outfits made from beautiful fabrics which photograph perfectly, so there's no need to buy anything specially unless you wish to.

DURING

Sitter sessions last around 60 minutes, including plenty of time for outfit and set changes.

All outfits, headbands, flower crowns and my collection of props are included within the session.

Don't forget, we have free and easy access parking right outside the front door.

AFTER

Following your session, I will carefully edit your gallery and invite you back to view your images in the large screen viewing room.

This relaxed appointment gives you the opportunity to select the images which will make up your final collection.

After your viewing session, I will fully air-brush and professionally edit your chosen images, making them perfect for your prints, products and USB.
